

MEZURE

**INNOVATIVE • COMPREHENSIVE • SECURE
ONLINE ASSESSMENT SYSTEM**

www.MezureSchools.com

SAMPLE TESTIMONIALS FROM CLINICAL PSYCHOLOGISTS

▶ **“I find the MEZURE to be the most comprehensive, user-friendly, and highly engaging intellectual assessment tool available. What took me a couple of hours previously, now takes a fraction of the time.”**

Clay Mills, Ph.D.
School Psychologist
Colorado City School District
Colorado City, AZ

▶ **“Students have been approaching me requesting to take the MEZURE!”**

Donald J. Asbridge, Ed.S.
School Psychologist
Taft Union High School District
Taft, CA

▶ **“In circumstances necessitating accurate, rapid and large scale measures of cognitive abilities (e.g., a national call-up of individuals into military service, and assessment for "special abilities" applications), the MEZURE would be an excellent tool for obtaining reliable information about individual abilities.”**

Joseph Vandergrift PhD.
School Psychologist - Holden, MA
Adjunct Faculty
Dept. of Education & Social Rehabilitation
Assumption College - Worcester, MA

▶ **“The future is now! Computer-assisted assessment with the MEZURE not only saves about two hours of testing time per case, but yields about twice the information.”**

Donald J. Asbridge, Ed.S.
School Psychologist
Taft Union High School District
Taft, CA

▶ **“The MEZURE is a “state of the art” assessment instrument that utilizes modern technology in a milieu that is familiar to students. The exciting graphics are more engaging and motivating than traditional instruments. I highly recommend the MEZURE!”**

Linda Halperin, Ed.S.
School Psychologist

▶ **“I have used the MEZURE on many students..... and it has exceeded my expectations across all areas. I recommend the MEZURE, without reservation, to other school and clinical psychologists.”**

Greg Nunn, Ph.D.
Clinical and School Psychologist
San Diego, CA

▶ **“The MEZURE is a refreshing and enjoyable alternative to the Wechsler test. In comparison, populations with ADHD seem to get a more valid and representative measure of intellectual abilities because of the composition of the fluid and crystallized scales not being heavily weighted with speed and time measures.”**

Dr. George N. Fincher
Chattanooga Behavioral Medicine Center
Nationally Certified School Psychologist
Nationally Certified Psychologist
Chattanooga, TN

▶ **“The MEZURE provides clinicians with an extremely meaningful way of assessing an individual's intellectual functioning that approximates in-depth assessments. It is like having a computerized Wechsler Scale and the TOVA built into one instrument.”**

Robert E. McCarthy, PhD
Fellow, American Association of
Integrative Medicine

▶ **"The MEZURE is an effective and accurate measure of cognitive abilities, on par with the main individually administered tests of cognitive abilities traditionally utilized. The utility of the measure for providing highly accurate measures of cognitive abilities is especially demonstrated in assessing populations with special interests (i.e. gifted) and special needs (i.e. disabilities.)"**

Joseph Vandergrift PhD.
School Psychologist - Holden, MA
Adjunct Faculty, Dept. of Education/Social Rehabilitation
Assumption College - Worcester, MA
